

ABOUT ME

I am a Senior ICT Project Manager with 25 years of professional work experience in the field of ICT.

During my ICT career I have been responsible for tens of successfully led and delivered customer projects in various business environments and sectors.

I am experienced and competent in leading and managing medium to large scale ICT-projects and programs on a national and international level.

As a person I am dutiful, open, efficient and reliable Project Manager with result and service-oriented mindset. As a Project Manager I work always in professional manner and take good care of all project stakeholders.

I've strong academic track record with two Master's degrees and one Bachelor's degree from different fields of science and engineering. My education has given me self-confidence and versatile skillset to successfully lead projects and people in ever-changing ICT and business environments.
